W ENDING SHELTER COUNT (date)			0
In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F) minus all Outcomes (R+V)>			295

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.
